**As Montana's lone voice on the U.S. Senate Finance Committee, I have made it my top priority to lower prescription drug costs for Montanans. In July of 2019, I voted to advance major bipartisan legislation to do just that!**

**Senator Daines speaking with Montana senators on lowering prescription drug costs**

**My legislation will cut costs and will greatly help Montana seniors and taxpayers. Those battling with the high costs of cancer, diabetes, or other chronic conditions will finally get the relief they need at the pharmacy counter.**

**My legislation:**

- **Lowers Medicare beneficiaries' out-of-pocket costs over \$20 billion**
- **Lowers premiums by \$5 billion**
- **Saves taxpayers over \$100 billion**
- **Protects seniors with high costs and provides peace of mind through an out-of-pocket spending cap**

**I'm also fighting to:**

- **Make access to lower cost generic drugs easier for Montanans**
- **Hold those responsible for negotiating drug prices accountable**
- **Increase transparency on the complex drug pricing system**

**As your voice in Washington D.C., I will always fight to put the health of Montanans first. The time to act on high prescription drug prices is now, and I will not stop fighting until Congress delivers meaningful reforms that will provide real savings for what Montanans spend on health care.**
